

2019 Sino-Europe Innovation Week of Health Technology

“Innovation for Health”

China:

- ... The fastest growing and the second largest market for healthcare.
- ... The second largest venture capital volume next to US, three times as big as whole Europe.
- ... Has the second largest number of “Uni-Corn” companies in the world.
- ... Is becoming world largest innovation investor.
- ... Is looking forward to global young entrepreneurs.

The 2019 SIWHT, Sino-EU Innovation Week of Health Technology, will be taking place in the most innovative area of Shanghai and Nanjing in China. The 2019 SIWHT is a high-level international event aiming to establish communication platforms for European and Chinese health technology entrepreneurs and investors to integrate into China innovation ecosystems and market, and furthermore, to explore possibilities to set up business in China and benefit from the growth of Chinese economy.

Introduction of organizers

Beijing YG Venture Capital M&C (organizer)

Beijing YG Venture Capital Management & Consulting Co., Ltd. (Beijing YG) focuses on the healthcare industry, and our business includes innovation cluster management, consulting, and investment fund. Driven by China market, capital and intellectual power, Beijing YG aims to bridge the international health-tech innovation ecosystem to China area, and promote the cooperation of capital, talent, technology, clinical resources, marketing channels and so on. We serve innovative enterprises and help international small and medium enterprises to enter the China market. After short period of development, the company has established partnership with world renown institutions & enterprises, including SinoPharm Group, Robert Bosch GmbH, Stiftung Technopark Zurich and Zhongguancun Development Group. Beijing YG is legal authorized representative of German Medical Valley in the China and initiator of health-tech platform of iCCAMT, International Co-Innovation Center for Advanced Medical Technology.

iCCAMT (organizer)

Founded by German Medical Valley, Robert Bosch GmbH, Sinopharm Group and the local governments, iCCAMT aims to accelerate global healthcare innovation in China. As an incubator + accelerator, iCCAMT dedicates to support innovative healthcare SMEs (small and medium sized companies) to grow in China. With global healthcare technology network and support from industry giants, iCCAMT aims to develop comprehensive platforms to strengthen cross-border healthcare technology collaborations, bridge investors and start-up entrepreneurs, and help Chinese companies to boost global competitiveness.

Technopark Zurich (co-organizer)

Technopark Zurich has been bringing people together from the fields of science, technology and economy at its 47,000 square meters site since 1993. It is a top location for technology transfer in Switzerland and a key point of contact for innovative start-ups looking to transform knowledge into marketable products and services. Around 260 companies are based in Technopark Zurich. A variety of rooms, offices and other spaces are available, all equipped with the latest infrastructure, plus a range of counselling and coaching services.

Medical Valley GmbH (co-organizer)

Medical Valley is a German industry cluster of excellence recognized by Federal Ministry of Education and Research. With more than 500 innovative healthcare companies including Siemens Healthiness, Medical Valley is the largest industry cluster of medical technology in Europe. Beijing YG is the legal representative of Medical Valley GmbH in China.

Steinbeis (co-organizer)

Steinbeis is one of the world most successful providers of know-how and technology transfer. The Steinbeis Transfer Network is made up of more than 1,000 enterprises. Specialized in chosen areas, Steinbeis Enterprises' portfolio of services covers research and development, consulting and expert reports as well as training and employee development for every sector of technology and management.

Biocat(co-organizer)

Biocat is the organization that champions the Healthcare and Life Sciences ecosystem in Catalonia, the leading BioRegion in Spain and one of the top five in Europe. Biocat is an initiative of the Government of Catalonia born in 2006 with the mission of boosting science and technology-driven innovation to grow economy and make social impact.

BioTalk GmbH (co-organizer)

BioTalk is a Swiss provider of services in strategic, investor relations, and marketing consulting since 1997. Besides publication of special interest journals and other media products, BioTalk has established a unique network within the European and the Chinese health-tech industries.

Sino-Scandinavian Innovation & Entrepreneurship Centre (SSIEC) (co-organizer)

SSIEC facilitate and elevate Swedish innovation and entrepreneurship in China. Through a vast network of Swedish and Chinese businesses and organisations, in close cooperation with government agencies. We make Swedish and Chinese business opportunities more accessible. Radically reducing the time needed to enter the Chinese market.

Business Sweden (Diplomatic Institution)

Business Sweden's purpose is to help Swedish companies to grow their global sales and international companies to invest and expand in Sweden.

Swissnex China (Diplomatic Institution)

Swissnex China is an initiative of Switzerland's State Secretariat for Education, Research and Innovation (SERI), managed in cooperation with the Department of Foreign Affairs. Working together with the Science, Education and Technology Section in the Embassy of Switzerland in China and regional consulates in Shanghai and Guangzhou, we connect Switzerland and China in science, education, and innovation.
